

# FUGAPROOF GROUT PROTECTION

## ALL TYPES OF GROUTING

### WHAT IT'S FOR

- Protects and sanitizes cement-based grouts
- Facilitates dirt removal and routine cleaning
- Prevents water and stains from being absorbed into the surface

### ADVANTAGES

- Ecological product: water-based
- Ready to use and easy to apply
- Safe for use with a spray applicator
- VOC-free: EC1Plus-classified eco-friendly treatment
- Will not alter the colour of grouting
- Odourless
- Water-based technology: drastically reduces treatment times
- Can be applied to surfaces with residual moisture
- An **A+** classified product in accordance with the French VOC regulation

### HOW TO USE IT

**No dilution required:** The product is ready to use.

**Instructions for use:** Clean the surface using **FUGANET** detergent. When the surface is dry, spray **FUGAPROOF** directly onto the grouting and dry any excess product using a cloth. The surface can be walked on after 4 hours

### COVERAGE

With 750 ml of product:

up to 850 linear metres

Coverage is indicative of one coat and may vary according to the material

### Packaging

750 ml bottles with spray nozzle in boxes of 6.

#### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.
- Protect can from frost.

#### TEMPERATURES

Storage temperature: from 5° to 30° C.  
This product must be applied to surfaces with temperature between 10°C and 30°C.

#### Warning

*Do not wet the surface in the first 24 hours after treatment.*

*Any dry residues that were not removed during application can be removed with **EASYWASH** or **CLEANER PRO**, diluted 1:30.*
