FOB XTREME

EXTREME WATER-AND OIL-REPELLENT PROTECTION

NATURAL STONE AND AGGLOMERATES. MARBLE AND GRANITE. CONCRETE. TUFF. WPC. **TERRACOTTA, QUARRY TILES**

ADVANCED STLVENT 90 **EXTREME WATER-**AND OIL-REPELLENT PROTECTION PROFESSIONAL TRANSPARENT BREATHABLE TREATMENT STONE, AGGLOMERATES, MARBLE, GRANITE TUFF, WPC, COTTO, QUARRY TILES

FOB XTREME, a water- and oil-repellent breathable protective agent, is based on the innovative **ADVANCED SOLVENT-BORNE TECHNOLOGY**, developed in the **FILA** research laboratories. It does not create a surface film and withstands UV rays, preserving its performance over time

COVERAGE

APPROXIMATE COVERAGE (1 litre):		
Stone		10/30 m²
Terracotta	rustic Tuscan, polished	15/20 m²
Terracotta	handmade	up to 10 m²
Concrete		up to 5 m²
Polished Marble/Granite		up to 30 m²

"Coverage shown is for guidance purposes only and refers to single coats"

Packaging

1 litre: boxes of 6. 5 litres: boxes of 4.

WARNINGS

- WARNINGS

 Keep out of reach of children.

 Do not disperse into the environment after use.

 Ventilate the area if applied on internal surfaces.

 The use of a single-disc cleaning machine is permitted only if it is perfectly undamaged.

 Outdoor flooring must be properly laid before being treated and must satisfy all specific requirements, including: adequate sloping, properly executed expansion joints, perfect insulation from underlying ground, proven compatibility with sub-zero temperatures.

 Does not protect against acidic aggression.

Storage temperature: from 0°C to 30°C
The product should be applied to materials with temperature between 5° and 30°C.

WHAT IT'S FOR

- · Water- and oil-repellent: it hampers the absorption of common watery and oily
- Protective base coat before waxing internal surfaces with rustic or textured finishes.
- · Excellent for coloured concrete tiles.
- Natural effect breathing protection.

ADVANTAGES

- Does not alter original colour and appearance.
- · Does not form surface film
- Does not alter terracotta frost resistance.
- Excellent on rustic ground terracotta and tumbled marble.
- Ideal for use near kitchens, barbecues and car driveways.
- Ideal for interior and exterior surfaces.
- Treated surfaces are safe for food contact
- An A+ classified product in accordance with the French VOC regulation

HOW TO USE IT

No dilution required: ready to use.

Application:

For materials with matt finish (indoors and outdoors): Apply the product evenly and continuously on a clean and dry surface using a brush or fleece pad, wetting the grout lines as well. Dab any excess product with a clean cloth before it dries (roughly 10-15 minutes).

For glossy or brushed finishes (indoors and outdoors): Apply FOB XTREME on a clean and dry surface, wetting the material and grout lines completely using a brush or fleece pad. Before the product dries (roughly 10-15 minutes), rub the surface and remove any residues using a microfibre cloth wetted with the product. Dry the surface with a clean cloth. When requested on high-absorption materials, apply two coats of the product with an 8-hour interval in between (e.g.: highly-trafficked areas, humid areas, outdoor surfaces). To speed up the process, it is possible to treat the surface with a single-disc floor scrubber.

To complete the cycle with the finish: on porous materials such as natural stone, reconstructed tiles, agglomerates and concrete tiles laid in indoor environments, a finishing wax can be applied depending on the material and on the desired effect (MATT, SATIN, CLASSIC, LONGLIFE). The surface can be walked on after just 8 hours. The stain-proofing effect starts after 24 hours.

Maintenance: use a diluted solution of CLEANER PRO.

Never apply FOB XTREME onto a surface that is already waxed. Do not apply **FOB XTREME** during the hottest hours of the day in summer. Carry out a patch test on a small surface area to check for any changes in colour. Do not apply the product externally if rain is forecast. Does not protect against acidic aggression.
